

Instructions for Access to DCM on Quercus

Once registered, you will receive course invitations by email.

Either click on the "Get Started" link within the email message, or visit [Quercus](https://q.utoronto.ca) and log in with your UTORid to accept the invitations.

You will find each module as an individual course. Visit each module/course site and complete required training.

The screenshot shows a Quercus course page for 'DCM - Mouse Module'. On the left is a dark blue navigation sidebar with icons for Account, Dashboard, Courses, and Calendar. The main content area has a breadcrumb trail 'DCM - Mouse Module > Modules'. Below this is a 'Home' button and a 'Grades' link with a notification badge '1'. A dropdown menu for 'Mouse Module' is open, showing three items: 'Welcome to the Mouse Module', 'Introduction to the Laboratory Mouse I', and 'Introduction to Laboratory Mouse II'.
